Reconnecting Girls to their Awesomeness

Girls today face multiple pressures from performance in school, sports, to issues with body image and friendships. Maggie focuses on teaching the curriculum of self-love helping girls reconnect to their awesomeness. She graduated from Boston College in 2010 where she found her passion for advising girls on physical health and mental wellness as the Director of the 60-member Dance Organization and a member of the BC Pom Squad. After graduation, she was a personal assistant to Bethenny Frankel while also continuing to educate and guide girls. She currently leads girl's groups throughout the tri-state area.
